

# Kindergarten

## Immunizations & Health Exam

All Students entering Kindergarten, are required to have their Immunizations and Health Exam completed prior to attending school. Your health provider or Florida Health Department will provide you with a copy of the DH 3040 “School Entry Health Exam” Form and DH 680 “Immunization Certification” Form, it must have the following comment under Part A:

*DOE Code 1: “Immunizations are complete for kindergarten entry”*

If you have not already completed this process, please plan to have this done as soon as possible and provide us a copy prior to the start of school.

***Students will not be able to attend school, until we have received this updated form.***

Thank you for your attention to this matter!
